ABOUT TRACKCHILD

The centrally sponsored ICPS Scheme aims at contributing to the improvement of the children who are in difficult circumstances. The MWCD entrusted NIC to develop a comprehensive ICT based system to track the 'missing' as well as 'vulnerable children'. After a successful pilot implementation in West Bengal, the system was rolled out nationally during 2011-12. The portal 'TrackChild' holds the live data base of 'missing' & 'found' children and tracks the overall progress of the children living in the Child Care Institutions (CCIs).

'TrackChild' portal has been designed and developed adhering to the guidelines provided in the Juvenile Justice (Care and Protection of Children) Act, 2000 and Model Rules 2007 and the provisions laid down in the Integrated Child Protection Scheme (ICPS). One of the tasks entrusted under ICPS to the State Governments is the setting up of a child tracking system which will facilitate data entry and matching of missing and found children, and also enable follow up of the progress of children who are beneficiaries of the Scheme. Thus, proper monitoring and welfare of the children under the Scheme would also be ensured through this portal.

'TrackChild' portal provides an integrated virtual space for all stakeholders & ICPS bodies which includes Central Project Support Unit (CPSU), State Child Protection Society/Units and District Child Protection Units (DCPU), Child Care Institutions (CCIs), Police Stations, Child Welfare Committees (CWCs), Juvenile Justice Boards (JJBs), etc. in the 36 State/UTs. It also provides a networking system amongst all the stakeholders and citizens to facilitate tracking of a "Child in distress". It requires data entry by different stakeholders.

OBJECTIVES

- 1 To ensure timely tracking of "Missing Children"
- 2 To ensure ultimate repatriation and rehabilitation of the missing children
- 3 To ensure monitoring of the children in the Child Care Institutions (CCIs)
- 4 To set up a framework for participating organizations involved in the process

FEATURES OF TRACKCHILD

- 1 Maintain e File for every Missing & Found Child
- 2 Maintain and monitor "Individual Child Care Plan" for every CCI Child
- 3 Tracking of every CCI Child
- 4 Online Matches of "Found" children with "Missing" children
- 5 Online Report for "Missing/Found" cases
- 6 Receive "e-Alerts" from Citizens or Stakeholders & Sending Alert other Stakeholders
- 7 Search a "Missing & Found" Child
- 8 Online MIS
- 9 Automated Search Agent for enhanced searching

MODULES

- 1 Automatic Suggestive match mechanism
- 2 Integration between CCI, CWC & CID/Crime Branch
- 3 ICPS and SARA registration for DWCD /SCPS / DCPS
- 4 Investigation Checklist
- 5 Child Trafficking Syndicates

- 6 Alerts
- 7 Supreme Court Guideline Checklist

'TRACKCHILD' MOBILE

The citizen interface of 'TrackChild' system may be accessed through mobile devices. A citizen can access the portal through mobile devices to use 'specialised' light weight interfaces to 'report a missing' / 'report a found' children or to search a missing/found children. A mobile app has also been developed & made available in 'Google Play Store' & 'NIC App Store' for downloading. The SMS Alert system sends alert messages to pre-defined stakeholders for initiating prompt action at their end for addressing the issue.
